Two stories high in height, this painted brick building is located in mid-block. The first floor is a shopfront.

The wall surface of the shop is white enameled metal. There is a large single pane window over a low base to the left. The wall surface then angles back slightly and incorporates a glass and steel door, with a transom. A similar door and transom appear to the extreme right on a wall portion parallel to and slightly recessed from the shop window. A diagonally angles marque includes back lit plastic signs.

There is a tripartite window on the second floor with a wider center panel. Each panel consists of a large pane topped by a transom. There is a panel of herring bone brick over the windows. The plain metal cornice has 2 end brackets and extend just short of the width of the building below the parapet which has steps up at the side walls. A large metal sign at right angles to the buildings is supported by a tower on the roof and gray wires.
